In the midst of a backyard camp out, ten-year-old Matt and four other children find themselves transported back into the time of George Washington and the American Revolution, where they begin to live out American history firsthand and learn the sober realities of war. When Marty Belucci chooses to write to Napoleon for a class project, his grandfather tells him how to get the letter delivered. His classmates are stunned when Marty receives a surprising reply. Six months after the Declaration of Independence, the American Revolution was all but lost. A powerful British force had routed the Americans at New York, occupied three colonies, and advanced within sight of Philadelphia. Yet, as David Hackett Fischer recounts in this riveting history, George Washington—and many other Americans—refused to let the Revolution die. On Christmas night, as a howling nor'easter struck the Delaware Valley, he led his men across the river and attacked the exhausted Hessian garrison at Trenton, killing or capturing nearly a thousand men. A second battle of Trenton followed within days. The Americans held off a counterattack by Lord Cornwallis's best troops, then were almost trapped by the British force. Under cover of night, Washington's men stole behind the enemy and struck them again, defeating a brigade at Princeton. The British were badly shaken. In twelve weeks of winter fighting, their army suffered severe damage, their hold on New Jersey was broken, and their strategy was ruined. Fischer's richly textured narrative reveals the crucial role of contingency in these events. We see how the campaign unfolded in a sequence of difficult choices by many actors, from generals to civilians, on both sides. While British and German forces remained rigid and hierarchical, Americans evolved an open and flexible system that was fundamental to their success. The startling success of Washington and his compatriots not only saved the faltering American Revolution, but helped to give it new meaning. He has spent his entire life close to home, in the picturesque Scottish town of Pitlochry. After sixty-four years of playing it safe, with retirement looming, Jeffrey resolves to climb Ben Macdhuì, Britain's second highest peak. His decision sets off a chain of events that changes his life forever. He returns from the mountain to find that nothing is as he left it and soon, events begin to spiral out of control. Within a few weeks a fire threatens the street where he lives, there is a new woman in his life and he finds himself on the ancient streets of Rome. Is sixty-four too old to take a leap of faith that could change everything? In the midst of an innocent lakeside campout, five modern-day children are transported back into the time of George Washington. Humorous, historical fiction that middle graders will enjoy. Washington Irving (1783–1859) was the first American literary artist to earn his living solely through his writings and the first to enjoy international acclaim. In addition to his long public service as a diplomat, Irving was amazingly prolific: His collected works fill forty volumes that encompass essays, history, travel writings, and multi-volume biographies of Columbus and Washington. But it is Irving's mastery of suspense, characterization, tempo, and irony that transforms his fiction into virtuoso performances, earning him his reputation as the father of the American short story. Charles Neider has gathered all sixty-one of Irving's tales, originally scattered throughout his many collections of nonfiction essays and sketches, into one magnificent volume. Together, they reveal his wide range: besides the expected classics like "Rip Van Winkle," "The Spectre Bridegroom," "The Legend of Sleepy Hollow," and "The Devil and Tom Walker," his fiction embraces realistic tales, ghost stories, parodies, legends, fables, and satires. For those familiar only with secondhand retellings of Irving's most famous tales, this collection offers the opportunity to step inside Washington Irving's imagination and partake of its innumerable and timeless pleasures. In this brilliantly illuminating group portrait of the men who came to be known as the Founding Fathers, the incomparable Gordon Wood has written a book that seriously asks, "What made these men great?" and shows us, among many other things, just how much character did in fact matter. The life of each—Washington, Adams, Jefferson, Franklin, Hamilton, Madison, Paine—is presented individually as well as collectively, but the thread that binds these portraits together is the idea of character as a lived reality. They were members of the first generation in history that was self-consciously self-made men who understood that the arc of lives, as of nations, is one of moral progress. Instant #1 New York Times Bestseller A People Book of the Week, Book of the Month Club selection, and Best of Fall in Good Housekeeping, PopSugar, The Washington Post, New York Post, Shondaland, CNN, and more! "[A] quirky, big-hearted novel...Wry, wise, and often laugh-out-loud funny, it's a wholly original story that delivers pure pleasure." —People From the #1 New York Times bestselling author of A Man Called Ove comes a charming, poignant novel about a crime that never took place, a would-be bank robber who disappears into thin air, and eight extremely anxious strangers who find they have more in common than they ever imagined. Looking at real estate isn't usually a life-or-death situation, but an apartment open house becomes just that when a failed bank robber bursts in and takes a group of strangers hostage. The captives include a recently retired couple who relentlessly hunt down fixer-uppers to avoid the painful truth that they can't fix their own marriage. There's a wealthy bank director who has been too busy to care about anyone else and a young couple who are about to have their first child but can't seem to agree on anything, from where they want to live to how they met in the first place. Add to the mix an eighty-seven-year-old woman who has lived long enough not to be afraid of someone waving a gun in her face, a flustered but still-ready-to-make-a-deal real estate agent, and a mystery man who has locked himself in the apartment's only bathroom, and you've got the worst group of hostages in the world. Each of them carries a lifetime of grievances, hurts, secrets, and passions that are ready to boil over. None of them is entirely who they appear to be. And all of them—the bank robber included—desperately crave some sort of rescue. As the authorities and the media surround the premises these reluctant allies will reveal surprising truths about themselves and set in motion a chain of events so unexpected that even they can hardly explain what happens next. Rich with Fredrik Backman's "pitch-perfect dialogue and an unparalleled understanding of human nature" (Shelf Awareness), Anxious People is an ingeniously constructed story about the enduring power of friendship, forgiveness, and hope—the things that save us, even in the most anxious times. The harrowing adventure of a boy, a real-life famous daredevil, and a monster storm When a storm brings down his father's boat, Digory Beale is forced to leave home to discover his fate. For if Digory has been orphaned, he can never go home again. On his journey, Digory becomes the apprentice to Henry Winstanley, a charming stranger whose life's obsession is to save sailors' lives. Digory must face his fears of the sea to help Henry bring candles to the amazing rock lighthouse Henry has built on a killer reef. But who could have known the force of the monster storm that was heading their way? In this poignant page-turner, Digory comes to understand the many facets of courage -- and what it means to be a true hero. "In 1940 Edmund Wilson was the undisputed big dog of American letters. Vladimir Nabokov was a near-penniless Russian exile seeking asylum in the States. Wilson became a mentor to Nabokov, introducing him to every editor of note, assigning reviews for The New Republic, engineering a Guggenheim. Their intimate friendship blossomed over a shared interest in all things Russian, ruffled a bit by political disagreements. But then came Lolita, and suddenly Nabokov was the big (and very rich) dog. Finally the feud erupted in full when Nabokov published his hugely footnoted and virtually unreadable literal translation of Pushkin's famously untranslatable verse novel Eugene Onegin. Wilson attacked his friend's translation with hammer and tong in the New York Review of Books. Nabokov counterattacked in the same publication. Back and forth the increasingly aggressive letters volleyed until their friendship was reduced to ashes by the narcissism of small differences"-- Ten-year-old Matt and six other children are mysteriously swept back in time to 1776 Boston, living out American history as they meet Benjamin Franklin, learn about colonial medicine and become part of a rebel spy ring. An Imperfect God is a major new biography of Washington, and the first to explore his engagement with American slavery When George Washington wrote his will, he made the startling decision to set his slaves free; earlier he had said that holding slaves was his "only unavoidable subject of regret." In this groundbreaking work, Henry Wienczek explores the founding father's engagement with slavery at every stage of his life—as a Virginia planter, soldier, politician, president and statesman. Washington was born and raised among blacks and mixed-race people; he and his wife had blood ties to the slave community. Yet as a young man he bought and sold slaves without scruple, even raffled off children to collect debts (an incident ignored by earlier biographers). Then, on the Revolutionary battlefields where he commanded both black and white troops, Washington's attitudes began to change. He and the other framers enshrined slavery in the Constitution, but, Wienczek shows, even before he became president Washington had begun to see the system's evil. Wienczek's revelatory narrative, based on a meticulous examination of private papers, court records, and the voluminous Washington archives, documents for the first time the moral transformation culminating in Washington's determination to emancipate his slaves. He acted too late to keep the new republic from perpetuating slavery, but his repentance was genuine. And it was perhaps related to the possibility—as the oral history of Mount Vernon's slave descendants has long asserted—that a slave named West Ford was the son of George and a woman named Venus; Wienczek has new evidence that this could indeed have been true. George Washington's heroic stature as Father of Our Country is not diminished in this superb, nuanced portrait: now we see Washington in full as a man of his time and ahead of his time. In the midst of a backyard campout, ten-year-old Matt and four other children find themselves transported back to the time of George Washington and the American Revolution, where they begin to live out American history firsthand and learn the sober realities of war. Bumps the toy dragon helps his friend Ben deal with his first-day-of-kindergarten apprehension in this back to school adventure. "A demonstration of outstanding skills on the river of American literature." —Entertainment Weekly "Bonnie Jo Campbell has built her new novel like a modern-day craftsman from the old timbers of our national myths about loners living off the land, rugged tales as perilous as they are alluring. Without sacrificing any of its originality, this story comes bearing the saw marks of classic American literature, the rough-hewn sister of The Leatherstocking Tales, The Adventures of Huckleberry Finn, and Walden."—Ron Charles, Washington Post For use in schools and libraries only. During a school trip to Ellis Island, Dominick Avaro, a ten-year-old foster child, travels back in time to 1908 Italy and accompanies two young emigrants to America. The New York Times and #1 internationally bestselling author of the Department Q series is back, with a terrifyingly relevant stand-alone novel about an America in chaos. Sixteen years before Democratic Senator Bruce Jansen was elected president of the United States, a PR stunt brought together five very different people: fourteen-year-old Dorothy "Doggie" Rogers, small-town sheriff T. Perkins, single mother Rosalie Lee, well-known journalist John Bugatti, and the teenage son of one of Jansen's employees, Wesley Barefoot. In spite of their differences, the five remain bonded by their shared experience and devotion to their candidate. For Doggie, who worked the campaign trail with Wesley, Jansen's election is a personal victory: a job in the White House, proof to her Republican father that she was right to support Jansen, and the rise of an intelligent, clear-headed leader with her same ideals. But the triumph is short-lived: Jansen's pregnant wife is assassinated on election night, and the alleged mastermind behind the shooting is none other than Doggie's own father. When Jansen ascends to the White House, he is a changed man, determined to end gun violence by any means necessary. Rights are taken away as quickly as weapons. International travel becomes impossible. Checkpoints and roadblocks destroy infrastructure. The media is censored. Militias declare civil war on the government. The country is in chaos, and Jansen's former friends each find themselves fighting a very different battle, for themselves, their rights, their country. . . and, in Doggie's case, the life of her father, who just may be innocent. The ancient mummy that Andrew encounters on a class trip to the museum seems to have special powers and makes him amazingly gifted. The essential guide for ethical decision-making in the 21st century, The Power of Ethics depicts "ethical decision-making not in a nebulous philosophical space, but at the point where the rubber meets the road" (Michael Schur, producer and creator of The Good Place). It's not your imagination: we're living in a time of moral decline. Publicly, we're bombarded with reports of government leaders acting against the welfare of their constituents; companies prioritizing profits over health, safety, and our best interests; and technology posing risks to society with few or no repercussions for those responsible. Personally, we may be conflicted about how much privacy to afford our children

on the internet; how to make informed choices about our purchases and the companies we buy from; or how to handle misconduct we witness at home and at work. How do we find a way forward? Today's ethical challenges are increasingly gray, often without a clear right or wrong solution, causing us to teeter on the edge of effective decision-making. With concentrated power structures, rapid advances in technology, and insufficient regulation to protect citizens and consumers, ethics are harder to understand than ever. But in *The Power of Ethics*, Susan Liautaud shows how ethics can be used to create a sea change of positive decisions that can ripple outward to our families, communities, workplaces, and the wider world—offering unprecedented opportunity for good. Drawing on two decades as an ethics advisor guiding corporations and leaders, academic institutions, nonprofit organizations, and students in her Stanford University ethics courses, Susan Liautaud provides clarity to blurry ethical questions, walking you through a straightforward, four-step process for ethical decision-making you can use every day. Liautaud also explains the six forces driving virtually every ethical choice we face. Exploring some of today's most challenging ethics dilemmas and showing you how to develop a clear point of view, speak out with authority, make effective decisions, and contribute to a more ethical world for yourself and others, *The Power of Ethics* is the must-have ethics guide for the 21st century. This is a combined literature and grammar unit that contains everything you need to teach the novel and more! Included in the unit are pre-reading, active-reading and post-reading activities with grammar lessons, literary activities, a literary terms matching quiz, a final essay test with grading rubric, and other activities just for fun!
