## Raumanen

**Raumanen May 01 2023** Raumanen, a prize-winning novel by Marianne Katoppo, tells the story of Monang, a handsome but wayward Batak man, and Raumanen, a young Minahasa woman who, though educated and intelligent, is also a 'soft touch' when it comes to love. As is deftly revealed by the author in this novel, even in modern day Indonesia, matters of religion and ethnicity can greatly affect--for better or worse--the course of a couple's relationship.
